Certificate III in Business Administration (Education)

BSB30915
About This Course

The Certificate III in Business Administration (Education) has specialist subjects to provide you with an in-depth understanding of how the different parts of the education sector interact. As well as looking at key skills in customer service, word processing and organising meetings, you also be able to select from a wide range of subject elective choices that will accommodate most needs.

The Certificate III in Business Administration (Education) will ensure you receive a greater understanding and awareness of the Australian education system and the diverse array of business, organisational and administrative skills relevant to this rewarding and fulfilling industry. These skills apply equally to a specialist role in the education sector, as well as a general office administration role.

Entry Requirements

Reading and Writing Skills
The course is an online correspondence course so you need to have basic English reading and writing skills, or higher. As a guide - you should have completed Year 10 schooling, or have proven workplace written communication skills.

Spoken English Skills
To ensure successful completion of this course you must have sufficient English speaking skills to be able to communicate with your Student Adviser over the phone.

Computer and Internet
- Access to a Desktop Computer or Laptop
- Internet access with Internet Explorer 8+, Chrome or Firefox
- Microsoft Office 2010 Word and Subject specific Office products for chosen electives (ie Excel, Powerpoint, Publisher)

Other
- Ability to study and conduct assessments in a safe environment
Core Subjects:

Work Safely

This subject covers the skills and knowledge required to work in a healthy and safe manner. Learn to recognise hazards, the importance of safety signs and how to raise safety issues within a workplace. This is a great entry level subject to help you act and respond in a safe manner and understand how to respond to emergency incidents.

Unit(s):
BSBWH201 - Contribute to health and safety of self and others

Keyboarding Skills

Keyboarding Skills focuses on developing touch typing skills, and also using keyboard functions and short cuts. Important proofreading tips as well as safe computer work practices are addressed. Students are allowed to practice online with this subject so that they can achieve 30 words per minute at an accuracy of 98% and are issued a separate document evidencing their typing speed.

Unit(s):
BSBITU307 - Develop keyboarding speed and accuracy

Education Sector

Education Sector is a subject to help develop an understanding of the different parts of the Australian education sector, and how they interrelate. Key sector policies such as promoting diversity and inclusivity are addressed as well as the copyright rules that apply to the use of educational resources.

Unit(s):
BSBIND301 - Work effectively in an educational environment
ICTICT103 - Use, communicate and search securely on the internet

Deliver Customer Service (Education)

Customer service is a key function in all job roles, and especially so in administrative roles within the education industry. This subject covers internal and external customer service. It provides information and knowledge on identifying the customers needs and delivering good customer service. There is a small component that looks into the legislation and regulations that govern customer service delivery.

Unit(s):
BSBCUS301 - Deliver and monitor a service to customers
BSBDIV301 - Work effectively with diversity
Meetings and Business Travel
This subject provides the skills and knowledge required to organise effective meetings including the preparation and distribution of meeting related documents such as agendas and minutes. It also covers skills and knowledge required to organise business travel, including preparing travel related documentation and making travel bookings.

Unit(s):
BSBADM405 - Organise meetings
BSBADM406 - Organise business travel

Write Business Documents
Learn to develop a good writing style for creating standard business documents such as letters, invoices, memos and emails. You will also get tips on reviewing, proof reading and editing documents, as well as how to safely save and store them. Practical activities ensure that you have the necessary skills to organise information, communicate with work colleagues and write clearly.

Unit(s):
BSBWRT301 - Write simple documents

Word Processing for Admin Roles
Learn key word processing skills that will allow you to take information from notes; create template documents, design and prepare multiple page documents, use mail merge and apply styles in accordance with any organisational style guides. You will also learn how to insert tables and images and an excel graph or chart into your word document to improve its readability and appeal.

Unit(s):
BSBITU303 - Design and produce text documents
BSBITU306 - Design and produce business documents
BSBADM302 - Produce texts from notes

Elective Subjects: 1 elective subject is required

Spreadsheets - An Introduction
In this introductory subject, learn the fundamentals of working with excel and creating formulas. Content also covers ways to design spreadsheets to improve the layout of information, as well as how to create graphs or charts. You will be amazed at the potential excel offers you to improve work processes and manage data.

Unit(s):
BSBITU304 - Produce spreadsheets

PowerPoint Presentations
PowerPoint is a powerful tool to prepare easy to read presentations. This subject covers the importance of being clear about the purpose of your presentations and looks at what you will need to do to prepare and plan your PowerPoint Presentation. Learn how to add content to your Presentation including hyperlinks, clip art, sounds and videos.

Unit(s):
BSBITU302 - Create electronic presentations
Outlook - Email Communication

Outlook is the most commonly used email communication program used by businesses. Throughout this subject you will learn how to use the different features and functions that Outlook has to offer, such as creating emails, contacts and tasks. Learn how to get organised by creating folders and scheduling appointments and meetings for both yourself and others.

Unit(s):
BSBADM307 - Organise schedules

Desktop Publishing Introduction

This specialist desktop publishing subject shows you how to use the program Publisher to learn essential skills to create business cards, flyers, and newsletters. You will learn about using margin guides, text boxes, and inserting information. This subject requires students to download a trial version of Publisher, or to have it already.

Unit(s):
BSBITU309 - Produce desktop published documents

Accounts Receivable

Understand the account administration steps involved in managing debtors (accounts receivable) from the initial sale through to updating the relevant journal and subsidiary ledgers for payments received. Learn and practice the techniques to contact outstanding debtors and manage overdue and outstanding debtors.

Unit(s):
BSBFIA304 - Maintain a general ledger
Quality Training Provider

ACCM was one of the first private training Colleges to be given official RTO registration status. 21 years later we have helped over 2,000 employers and 25,000 students achieve their career goals and have been recognised as a state finalist on the NSW Training Awards. We have a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Speedy Paper-less Enrolment

Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes! For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment

Within 30 minutes of being enrolled, your personal log-on details are emailed to you. This gives you access to course materials to commence your studies (via our on-line system WebClass).

Industry Expert Student Adviser

You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback

All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in 2 weeks or less. In the meantime you can progress to your next subject.

Personal Contact for the Right Start

When you enrol your College Student Adviser will phone to welcome you to the course. Your Student Adviser will ensure that you understand the best way to progress in your course. They will also assist you with any questions you may have. They will be in regular touch with you at the start of your course to offer motivation, support and guidance. For employment based enrolments they will also make contact with supervisors during this time to address any questions they may have.

Pro-active Learner Support

The support won’t stop! Contact from your College Student Adviser will continue every month, based on the level of help you need. Of course, at any time you can call us to get help. Get immediate assistance over the phone and by email. If immediate assistance is unavailable for any reason, we will make sure a qualified Student Adviser is in contact with you no later than the next business day.

Quality Course Materials

Our step by step course materials have been written by industry experts specifically for the College. They will give you all of the relevant learner information you need to succeed in your course. The resources simplify industry jargon and concepts, give you industry insight and understanding, and focus on current real world business practices.

Employer Progress Updates

For employment based enrolments all supervisors will be emailed a monthly progress report showing the status of all learners. We understand that its essential to keep you up to date.
