Entry Requirements

Reading and Writing Skills
The course is an online correspondence course so you need to have average English reading and writing skills, or higher. As a guide - you should have completed Year 12 schooling, or have sound workplace written communication skills.

Spoken English Skills
Some components of this course have practical components where students will be required to demonstrate verbal communication skills as part of their assessments. Average English skills are necessary to complete these components successfully.

Computer and Internet

• Access to a Desktop Computer or Laptop
• Internet access with Internet Explorer 8+, Chrome or Firefox
• Microsoft Office 2010 Word and Subject specific Office products for chosen electives (ie Excel, Powerpoint, Publisher)

Other

• Ability to study and conduct assessments in a safe environment
Core Subjects:

Contribute to Safety in Banking
This subject covers the skills and knowledge required to work in a healthy and safe manner within a banking environment. You will learn to recognise hazards, the importance of safety signs and how to raise safety issues within a workplace. This is a great entry level subject to help you act and respond in a safe manner and it also covers how to respond to emergency incidents.

Unit(s):
BSBWH5201 - Contribute to health and safety of self and others

Co-ordinate Customer Service in Finance
Providing good service to your internal and external customers is a critical responsibility for senior staff, team leaders and managers. Learn how to identify the key aspects of service delivery important to your customers, and the customer service system needed to achieve your service standards. The special context of financial services rules and codes of practice is also addressed.

Unit(s):
BSBCUS403 - Implement customer service standards
BSBCUS401 - Coordinate implementation of customer service strategies
FNSCUS403 - Deliver a professional service to customers

AML and Banking Deposit Products
Understand the range of differences between different transaction, savings and investment products and be able to compare products and recommend the most suitable one to meet specific customer needs. In addition learn and apply the rules under Anti-money Laundering and Counter Terrorism legislation such as significant and suspect cash transactions.

Unit(s):
FNSINC402 - Develop and maintain in-depth knowledge of products and services used by an organisation or sector

Use Business Technology
This subject looks at the skills and knowledge required to select and use computer software and organise electronic information and data. A competency conversation is used to determine your current knowledge and any specific skills and knowledge that are needed about basic business technology such as computers and printers.

Unit(s):
BSBWOR204 - Use business technology
Professional Conduct in Finance
To build a successful career in the financial services industry you need a range of skills and knowledge. This subject covers skills to work effectively in a team, manage your time, apply specific legislation that affects your role, to identifying how your organisation can be more sustainable. You will develop your own professional development plan to ensure that you continue to progress in your chosen field in financial services.

Unit(s):
FNSINC401 - Apply principles of professional practice to work in the financial services industry

Elective Subjects: 2 - 4 Electives are required (depending on subjects chosen)

Ethical Selling of Financial Products
Strict rules apply to the sale of financial products. This subject looks at how to be effective with sales but also to be compliant and ethical. The subject covers active listening and questioning skills; cross selling opportunities and addressing customer objections. As interpersonal and presentation skills are an important aspect of sales - a component of the assessment is undertaken via a Role Play on Skype.

Unit(s):
FNSSAM401 - Sell financial products and services
FNSSAM403 - Prospect for new clients

Sales Planning
This subject takes you through developing sales plans, budgets and KPIs, as well as achieving sales budget requirements, understanding sales management techniques, promotional activities and working with teams to implement sales plans. It includes topics such as team consultation, team motivation and mentoring as well as cost consciousness.

Unit(s):
FNSSAM402 - Implement a sales plan

Loans assessment
Beginning with the role of lending in the marketplace, this subject then reviews the role and content of Credit Risk Policies and the lending approval criteria detailed within those policies. The process and methods for assessing credit and the typical approval process through to contract execution and settlement are detailed in this subject.

Unit(s):
FNSCRD301 - Process applications for credit
FNSCRD401 - Assess credit applications

Loan Securities and Risk Management
The key focus of this subject is understanding and assessing the risk within a loan application, and determining the necessary security in line with Lending Policies. This subject looks at the standard types of securities including bills of sale, guarantees and mortgages. This subject requires clear communication skills and knowledge of securities to be demonstrated by a one on one role play with a college trainer.

Unit(s):
FNSCRD402 - Establish and maintain appropriate security
BSBRSK401 - Identify risk and apply risk management processes
Understanding Consumer Credit
This subject looks at the skills and knowledge required to explain the functions and implications of different forms of consumer credit to clients.

Unit(s):
FNSCRD503 - Promote understanding of the role and effective use of consumer credit

Compliance with FS Legislation
Compliance is a key theme in any financial services role. This subject looks at the regulatory bodies that supervise the industry and the laws and codes of practice that impact on day to day operations. Strategies for staying up to date with compliance issues is a key part to this subject. Privacy laws are a topic covered in this subject.

Unit(s):
FNSORG401 - Conduct individual work within a compliance framework

Dispute Resolution
Formal disputes processes exist in financial services as a regulatory requirement. In this subject you will learn formal complaints management techniques, Internal Dispute Resolution requirements and understand the applicable External Dispute Resolution Schemes.

Unit(s):
FNSCUS402 - Resolve disputes
FNSPIM410 - Collect, assess and use information

Leadership Skills
This subject is specifically designed to lay a strong leadership foundation for learners. Focusing on key leadership elements such as communication, organisational behaviour, being a role model, problem solving, delivering feedback and effective decision making, this subject is perfect for anyone looking to build or enhance their leadership skills.

Unit(s):
BSBMGT405 - Provide personal leadership

Prioritising Strategies
This subject provides time management strategies and planning techniques suited for setting personal and team goals and targets. The importance of goals being linked to key performance indicators of the business is examined.

Unit(s):
BSBWOR501 - Manage personal work priorities and professional development

Legal Proceedings
This subject covers ways of locating the Debtor, the types of debtors and the types of debts. It looks at the role of the regulators, the regulations that apply to the legal process and the impact that securities have on the collection of debts. Important in this subject is how legal proceedings to recover debts are commenced through the Court Systems Proceedings and the enforcement processes that can result.

Unit(s):
FNSMCA402 - Initiate legal recovery of debts
Broking Skills

Broking Skills looks at the essential skills for a mortgage and finance broker: interview techniques; determining client needs and explaining product differences. This subject covers an overview of the industry, relevant Industry Bodies, and key legislation such as Broker Arrangement Regulations and the National Consumer Credit Protection Act.

Unit(s):
FNSFMB402 - Identify client needs for broking services
FNSFMB403 - Present broking options to client

Tier 2

Tier 2 accreditation involves looking at the role of advisers and the classification of Tier 2 products including the features of Basic Deposit Products and Non-cash Payment Products. The difference between factual information and general advice is explored. In addition the ASIC RG content requirements of relevant consumer legislation and disclosure document obligations are covered. This program is in-depth and requires multiple skills demonstrations via role plays.

Unit(s):
FNSASIC301 - Establish client relationship and analyse needs
FNSASIC302 - Develop, present and negotiate client solutions

Build Client Relationships

This subject has been structured to progressively develop the students skill and knowledge in the building, managing and maintaining of customer relationships to support business outcomes. This includes considering a range of client relationship strategies and also how to use networking effectively.

Unit(s):
BSBCUS402 - Address customer needs
BSBREL402 - Build client relationships and business networks
Service Guarantees

Quality Training Provider
ACCM was one of the first private training Colleges to be given official RTO registration status. 21 years later we have helped over 2,000 employers and 25,000 students achieve their career goals and have been recognised as a state finalist on the NSW Training Awards. We have a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Speedy Paper-less Enrolment
Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes! For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment
Within 30 minutes of being enrolled, your personal log-on details are emailed to you. This gives you access to course materials to commence your studies (via our on-line system WebClass).

Industry Expert Student Adviser
You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback
All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in 2 weeks or less. In the meantime you can progress to your next subject.

Personal Contact for the Right Start
When you enrol your College Student Adviser will phone to welcome you to the course. Your Student Adviser will ensure that you understand the best way to progress in your course. They will also assist you with any questions you may have. They will be in regular touch with you at the start of your course to offer motivation, support and guidance. For employment based enrolments they will also make contact with supervisors during this time to address any questions they may have.

Pro-active Learner Support
The support won’t stop! Contact from your College Student Adviser will continue every month, based on the level of help you need. Of course, at any time you can call us to get help. Get immediate assistance over the phone and by email. If immediate assistance is unavailable for any reason, we will make sure a qualified Student Adviser is in contact with you no later than the next business day.

Quality Course Materials
Our step by step course materials have been written by industry experts specifically for the College. They will give you all of the relevant learner information you need to succeed in your course. The resources simplify industry jargon and concepts, give you industry insight and understanding, and focus on current real world business practices.

Employer Progress Updates
For employment based enrolments all supervisors will be emailed a monthly progress report showing the status of all learners. We understand that its essential to keep you up to date.
