Entry Requirements

Reading and Writing Skills
The course is an online correspondence course so you need to have average English reading and writing skills, or higher. As a guide - you should have completed Year 12 schooling, or have sound workplace written communication skills.

Spoken English Skills
Some components of this course have practical components where students will be required to demonstrate verbal communication skills as part of their assessments. Average English skills are necessary to complete these components successfully.

Numeracy Skills
Numeracy skills are required at an average level eg completion of Year 10 maths and the ability to use a calculator.

Computer and Internet
- Access to a Desktop Computer or Laptop
- Internet access with Internet Explorer 8+, Chrome or Firefox
- Microsoft Office 2010 Word and Subject specific Office products for chosen electives (ie Excel, Powerpoint, Publisher)

Other
- Ability to study and conduct assessments in a safe environment
Subject Descriptions

Core Subjects:

Professional Conduct in Finance
To build a successful career in the financial services industry you need a range of skills and knowledge. This subject covers skills to work effectively in a team, manage your time, apply specific legislation that affects your role, to identifying how your organisation can be more sustainable. You will develop your own professional development plan to ensure that you continue to progress in your chosen field in financial services.

Unit(s):
FNSINC401 - Apply principles of professional practice to work in the financial services industry

Elective Subjects: 5 - 9 Electives are required (depending on subjects chosen)

Comply with FS Legislation
This subject covers the key areas of legislation that apply to different occupations, the development, implementation and monitoring of a compliance system and the Training Strategies to keep people up to date with compliance issues and changes.

Unit(s):
FNSFMK505 - Comply with financial services regulation and industry codes of practice
FNSORG401 - Conduct individual work within a compliance framework

Risk Management Strategies
Risk Management Strategies covers risk context and risk identification, as well as risk management processes. The subject looks into the analysis of a risk, its causes, and ways to consider risk tolerance. Strategies for controlling and treating risks, as well as reviewing and monitoring those risks, are considered.

Unit(s):
FNSRSK401 - Implement risk management strategies
FNSRSK501 - Undertake risk identification
FNSRSK502 - Assess risks

Client and Third Party Relationships
This subject covers the skills and knowledge required to communicate and network with a wide range of people, internal and external to the organisation, to increase efficiency, build continuing relationships and improve sales. It has a focus on relationship building and prospecting for business referrals.

Unit(s):
FNSCUS501 - Develop and nurture relationships with clients, other professionals and third party referrers
BSBREL402 - Build client relationships and business networks
BSBCUS402 - Address customer needs

**Personal Insolvency**
This subject begins with an Introduction to the key terms used in the Personal Bankruptcy and Insolvency process. It covers the laws and codes of practice that apply to Personal Insolvency and the role of the regulator. Important in this subject is the creditor practices and strategies to support debtors in difficulty, prior to commencing the Bankruptcy process. This subject requires practical skills to complete personal insolvency forms and strong skills in dealing with debtors in difficulty that involves a one on one role play with a college trainer.

Unit(s):
FNSCRD501 - Respond to personal insolvency situations
FNSCRD504 - Manage the credit relationship

**Corporate Insolvency**
This Diploma subject covers corporate insolvency and the legal position of directors, it includes the types of external administration and the liquidation process. It examines the key roles in the process and the factors that impact on corporate insolvency including the calculation of creditor dividends. Sample documents and Statutory Forms are also covered in this subject.

Unit(s):
FNSCRD505 - Respond to corporate insolvency situations

**Policy Development**
This subject covers the role of policy and procedure within an organisation as part of the improvement process. The subject reviews the triggers for Policy Review, the planning process, and the implementation steps. It also reviews clear standards to assist in the effective communication of Policies and Procedures and the importance of the monitoring process.

Unit(s):
FNSORG502 - Develop and monitor policy and procedures

**Advanced Selling of Financial Products**
Strict rules apply to the sale of financial products. This subjects looks at how to be effective with sales but also to be compliant and ethical. The subject covers advanced level questioning and probing skills; addressing customer objections; and taking steps to close the sale. As interpersonal and presentation skills are an important aspect of sales - a component of the assessment is undertaken via a Role Play on Skype.

Unit(s):
FNSSAM403 - Prospect for new clients
FNSSAM501 - Apply advanced selling techniques to selling of financial products and services

**Manage a Sales Team**
This subject covers developing sales plans, sales budgets and KPIs. A key component is the critical thinking and analysis involved in assessing customer needs. Sales management techniques and promotional activities are topics examined to ensure that you can successfully lead the sales team.
Unit(s):
BSBSLS502 - Lead and manage a sales team
FNSSAM502 - Assess market needs

Financial Budgets
The budgeting process is covered in depth in this diploma level subject. You will get the opportunity to develop your forecasting skills as you prepare sales, cash and operating budgets. You will also learn how to produce budgeted financial statements which are useful for estimating the financial results, financial position and cash flows of a business.

Unit(s):
FNSACC503 - Manage budgets and forecasts

Internal Controls
Internal controls are a very important function of any business. They are an essential means of safeguarding a business’s assets and resources. You will learn about specific controls that should be introduced into every accounting system as well as fraud and fraud detection and auditing and corporate governance.

Unit(s):
FNSACC506 - Implement and maintain internal control procedures

AML and Banking Deposit Products
Understand the range of differences between different transaction, savings and investment products and be able to compare products and recommend the most suitable one to meet specific customer needs. In addition learn and apply the rules under Anti-money Laundering and Counter Terrorism legislation such as significant and suspect cash transactions.

Unit(s):
FNSINC402 - Develop and maintain in-depth knowledge of products and services used by an organisation or sector
BSBPRO401 - Develop product knowledge

Prioritising Strategies
This subject provides time management strategies and planning techniques suited for setting personal and team goals and targets. The importance of goals being linked to key performance indicators of the business is examined.

Unit(s):
BSBWOR501 - Manage personal work priorities and professional development

Manage People Performance
This hands on subject looks at the skills and knowledge required to manage the performance of staff who report to you directly. Development of key result areas and key performance indicators and standards, coupled with regular and timely coaching and feedback, provide the basis for performance management. This subject covers strategies for assigning and allocating work, establishing clear role responsibilities, and using performance counselling methods and development plans for improving performance.

Unit(s):
BSBMGT502 - Manage people performance
Quality Planning Strategies

This diploma level task goes beyond theory and asks learners to apply the principles of operational planning and continuous improvement in a realistic workplace scenario. Learners will carefully analyse business results to build an improved operational plan that takes into account the key elements consultation and communication, goal setting, monitoring, training, recruitment, resource procurement and embedding continuous improvement opportunities.

Unit(s):

BSBCUS501 - Manage quality customer service

BSBMGT516 - Facilitate continuous improvement

BSBMGT517 - Manage operational plan
Quality Training Provider
ACCM was one of the first private training Colleges to be given official RTO registration status.
21 years later we have helped over 2,000 employers and 25,000 students achieve their career goals and have been recognised as a state finalist on the NSW Training Awards.
We have a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Speedy Paper-less Enrolment
Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes!
For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment
Within 30 minutes of being enrolled, your personal log-on details are emailed to you. This gives you access to course materials to commence your studies (via our on-line system WebClass).

Industry Expert Student Adviser
You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback
All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in 2 weeks or less. In the meantime you can progress to your next subject.

Personal Contact for the Right Start
When you enrol your College Student Adviser will phone to welcome you to the course. Your Student Adviser will ensure that you understand the best way to progress in your course. They will also assist you with any questions you may have.
They will be in regular touch with you at the start of your course to offer motivation, support and guidance.
For employment based enrolments they will also make contact with supervisors during this time to address any questions they may have.

Pro-active Learner Support
The support won’t stop! Contact from your College Student Adviser will continue every month, based on the level of help you need.
Of course, at any time you can call us to get help. Get immediate assistance over the phone and by email. If immediate assistance is unavailable for any reason, we will make sure a qualified Student Adviser is in contact with you no later than the next business day.

Quality Course Materials
Our step by step course materials have been written by industry experts specifically for the College. They will give you all of the relevant learner information you need to succeed in your course.
The resources simplify industry jargon and concepts, give you industry insight and understanding, and focus on current real world business practices.

Employer Progress Updates
For employment based enrolments all supervisors will be emailed a monthly progress report showing the status of all learners. We understand that its essential to keep you up to date.
